Battle System

Encountering Wild Supemons

When you venture into the wild, you'll encounter Supemons you can battle and capture. During battles, you have several options:

1. **Use Moves**
   - Each Supemon has 2 moves:
     - A damage-dealing move
     - A status boost move
   - Success depends on your accuracy and the enemy's evasion

2. **Switch Supemons**
   - Change to another Supemon in your team
   - This uses up your turn

3. **Use Items**
   - You can use up to 4 items per battle
   - Only healing items are usable during battles

4. **Capture**
   - Try to catch the wild Supemon
   - Success rate increases as the enemy's HP decreases
   - You can have up to 10 Supemons in your team

5. **Run Away**
   - Attempt to flee from battle
   - Success depends on speed comparison between your Supemon and the enemy
